This catalogue was a leaf from a 19thc periodical of astrology, uploaded by @MuseumAstro of Twitter https://twitter.com/MuseumAstro/status/1564805077948198912 he speculates it comes from on or about 1898. I hope that we can do to this rather short catalogue what has been done following several other notable catalogues– such as A Catalogue Raisonné of Works on Astrology, available online, (pt 1 https://docs.google.com/document/d/1GpCepT--IS3vTXg105DxyH_Ft-rGSqrKeAI34vpoIOo/edit and pt 2 https://docs.google.com/document/d/1m0G6gnebY_N1blELQGaLNsxHEmc9rZTUpY-u2nmGwzw/edit).

This particular text would be of interest for it shows the library of a late 19thc astrologer. In addition to astrological works, there are numerous religious and more generally historical works too. At the same time it also poses challenges, for in most of the entries no author's name is given. However, i believe that through a bit of searching through the following sites, and indeed, within the *A Catalogue Raisonné* above, most of this work would be revealed
